

Building maintenance

Our staff are professionally qualified in many areas of building maintenance and experienced in the use of modern maintenance equipment and Asbestos at work regulations.

Our activities are covered by risk assessments that are regularly reviewed. We produce appropriate method statements to cover the projects we undertake.

Supervisors carry out regular site inspections to ensure that health and safety requirements are adhered to and that clients needs are being met.

Our building maintenance service can cover regular, periodic maintenance or one-off jobs, to suit your requirements. We can also provide a 24- hour emergency response.

Our services include internal and external repairs and refurbishment of buildings This can involve painting and decorating, general maintenance and specialist maintenance including plumbing services.

We can provide a caretaking and cleaning service and will also undertake project management and provide consultation advice, if required.

Both cyclical and responsive maintenance tasks are recorded on a web based help desk that enables clients to track our progress in completing the jobs they have raised with us.

Our staff use PDAs to record when maintenance tasks are carried out and this information can be reviewed on-line by our customers.

We are part of **Norse**, one of the UK's leading facilities management and services companies.

Committed to the environment

Suffolk Coastal Services holds BS EN ISO 14001 Environmental accreditation and as an environmentally aware company we try to reduce the negative impact our work could have on the environment. Consequently our vehicles are well maintained, to reduce unnecessary fuel usage or release of emissions.

We use paints which are chosen because the harmful substances they release into the atmosphere have been reduced as much as possible.

We will dispose of the waste we generate responsibly and in accordance with all relevant legislation.
