We will help you recycle as much of your waste as possible and can provide training on the separation of waste and recyclable materials to your staff and contractors. We provide appropriate signage advising on which wastes can be recycled and we will supply you with suitably sized and labelled waste and recycling storage containers.

We can advise you on appropriate plantings for hedges, beds and screens around your site. We will use native plants that encourage wildlife and which will also improve the appearance of your premises.

Our cleaning and building maintenance staff use environmentally friendly products. Your premises will be clean and well maintained whilst the release of harmful substances is minimised.

We are part of **Norse**, one of the UK's leading facilities management and services companies.

“ Your staff were amazing and really helped us achieved our environmental aims. We now recycle in the region of 41% of the waste we generate. ”
