

Client testimonials

“ I wanted to say what an excellent job the team carried out in very challenging weather conditions. They are a credit to Waveney Norse and are to be commended for the way they carried out a very difficult job. ”

Private customer
Bramerton, Norwich

“ I would like to say thank you for the excellent tree works carried out, very efficient and thoroughly nice chaps too! ”

Private customer
Gorleston, Gt. Yarmouth

“ I would like to say what a first class professional team, their expertise and efficiency was extremely impressive. Unlike the first contractors, they were polite and sympathized with our concerns regarding the garden and property close by. The job was done with no problems... A brilliant skilful team indeed. ”

Tree services from Waveney Norse

We provide a complete range of tree services to both the public and private sectors across the boundaries of Suffolk and Norfolk and our professional team is able to offer a complete solution to all your tree management needs.

Our customers range from the owners of large estates, both public and commercial organisations and private households. We appear on a number of local authority approved contractor lists. From the first point of contact we provide sound impartial advice that will assure you peace of mind. Your trees are an asset and with our assistance they need not be a liability.

Health and safety

Our clients can be confident that all the work we undertake on their behalf is carried out to the British Standard 3998 'Recommendations

for Tree Surgery'. Our climbing arborists are fully qualified, experienced, equipped and competence certificated. All our works meet local Planning requirements. Our entire operation is covered by Third Party Public Liability insurance to the value of £10 million.

We care about what we do and the service we provide. Our main aim is to help you maintain a healthy tree stock through remedial pruning, however, when required, we are experienced in tree felling and canopy reduction, particularly in confined spaces.

The environment

Our complete tree service also includes tree stump removal and tree planting and we have a good track record of establishing larger specimen trees.

All tree wastes are removed, chipped and re-cycled in an environmentally sustainable manner.

We are working to achieve recognition for our positive commitment to the environment through the award of ISO 14001.

Customer care

We are customer focused and ensure our service to you is communicated in a clear, understandable manner. Our professional services are of the highest quality, yet competitively priced and quotations are provided free of charge.
